THE AGILENOW

Leading SAFe Training Course

COURSE CURRICULUM & LEARNING GUIDE

Review the complete module outline below, including topics and learning outcomes. Practical exercises are The AgileNow learning activities; certification requirements remain governed by the relevant awarding body.

Module 1: Business agility

Explore business agility through practical explanations and a course-relevant example.

Topics Covered

- Lean-Agile mindset
- SAFe core values
- Customer centricity and design thinking
- Value streams and flow

Learning Outcome: Explain business agility and use the covered concepts to reason about a practical scenario.

Module 2: Agile teams and ARTs

Explore agile teams and arts through practical explanations and a course-relevant example.

Topics Covered

- Cross-functional teams
- ART roles and responsibilities
- Built-in quality
- Coordination across teams

Learning Outcome: Explain agile teams and arts and use the covered concepts to reason about a practical scenario.

Module 3: PI Planning

Explore pi planning through practical explanations and a course-relevant example.

Topics Covered

- Planning readiness and inputs
- Capacity and objectives
- Dependencies and risk conversations
- Planning review and confidence

Learning Outcome: Explain pi planning and use the covered concepts to reason about a practical scenario.

Module 4: Delivering value

Explore delivering value through practical explanations and a course-relevant example.

Topics Covered

- Continuous delivery pipeline
- DevOps collaboration
- System demos
- Inspect and Adapt

Learning Outcome: Explain delivering value and use the covered concepts to reason about a practical scenario.

Module 5: Leadership and portfolio context

Explore leadership and portfolio context through practical explanations and a course-relevant example.

Topics Covered

- Strategy and investment alignment
- Lean governance
- Leading change
- Coaching and responsible AI discussion

Learning Outcome: Explain leadership and portfolio context and use the covered concepts to reason about a practical scenario.

Plan Your Learning

Discuss your experience and goals with our team. Confirm prerequisites, training format, materials, dates, fees and examination inclusion before booking. Course attendance is distinct from earning a certification. This guide is The AgileNow curriculum; it is not an official awarding-body syllabus.
